COURT RESERVATION SOFTWARE FOR HOAS

Is YourCourts right for your community?

Court reservations your residents will actually use — with the fairness, rules, and reporting your board is looking for, at a price built for HOA budgets.

Does this sound familiar?

- Reservations are kept on paper or a shared calendar (if at all), and residents have to walk over just to see if a court is open.
- A few residents or groups always seem to have the courts at peak times, and there's no way to tell how fair usage really is.
- Court rules rely on the honor system, with no automatic way to enforce booking limits.
- Board members and volunteers end up fielding emails and texts to sort out conflicts and announce closures.

What is YourCourts?

YourCourts is a modern, customizable, and affordable court reservation platform, shaped by working closely with hundreds of communities since 2008 and rebuilt from the ground up in 2017. It's simple for residents to use and easy for volunteer board members and community managers to run.
